

# BIT's 3<sup>rd</sup> Annual World Congress of High-Tech Acupuncture and Integrative Medicine-2016

Theme: From Basic Research to Clinical Application

Time: November 16-19, 2016 Place: Nanjing, China

中医学是中华民族伟大的智慧，应当努力发掘，加以提高。  
——1958年10月11日在北京举行的全国中医研究规划会议

Chinese pharmacologist Youyou Tu has won this year's Nobel Prize in physiology or medicine for her works that led to the creation of the artemisinin. This represents a great development of modern Chinese medicine.

Prof. Youyou Tu and the Chair of the World Congress, Prof. Gerhard Litscher
