7 The editors of *OBM Geriatrics* would like to express their sincere gratitude to the following  
8 reviewers for assessing manuscripts in 2022. We greatly appreciate the contribution of expert  
9 reviewers, which is crucial to the journal's editorial process. We aim to recognize reviewer  
10 contributions through several mechanisms, of which the annual publication of reviewer  
11 names is one. Reviewers receive a voucher entitling them to a discount on their next LIDSEN  
12 publication and can download a certificate of recognition directly from our submission system.  
13 Additionally, reviewers can sign up to the service Publons (<https://publons.com>) to receive  
14 recognition. Of course, in these initiatives we are careful not to compromise reviewer  
15 confidentiality. Many reviewers see their work as a voluntary and often unseen part of their  
16 role as researchers. We are grateful to the time reviewers donate to our journals and the  
17 contribution they make.
