The editors of *OBM Integrative and Complementary Medicine* would like to express their sincere gratitude to the following reviewers for assessing manuscripts in 2022. We greatly appreciate the contribution of expert reviewers, which is crucial to the journal's editorial process. We aim to recognize reviewer contributions through several mechanisms, of which the annual publication of reviewer names is one. Reviewers receive a voucher entitling them to a discount on their next LIDSEN publication, and they can download a certificate of recognition directly from our submission system. Additionally, reviewers can sign up for the service Publons (<https://publons.com>) to receive recognition. Of course, in these initiatives, we are careful not to compromise reviewer confidentiality. Many reviewers see their work as a voluntary and often unseen part of their role as researchers. We are grateful for the time reviewers donate to our journals and the contribution they make.
